By Order of Session

The hunting season closed on Tuesday, and it may be said that it brought no great sport or marked success to local hunters. Game birds seemed to be scarce and hard to wing. Perhaps, as this is an era of organizations and unions for self-protection and the promotion of selfish ends, the feathered tribe has "caught on," and by agreement seclude themselves during the open season, when there is real danger. In this event, of course the few that were bagged may have refused to join the union.

It would be interesting to know just how closely Montereyans came to the line of self support in the way of pork or bacon. Certainly the town makes a record each year, and the fall of 1920 shows no falling off.

Paul Brown, the colored blacksmith, reports the champion porker for the season, butchered last week. Its weight was 452, a smaller one killed two weeks earlier, weighing 340. There is frequently a friendly rivalry among the townsmen, and Paul is proud to wear the 1920 belt.

FROM ILLINOIS

Downs, Ill., Dec. 6, 1920

Dear Editor:

I take this opportunity of sending you a few lines from Downs.

We have had a very dry and warm summer, a fine fall, and so far, two little snow flurries. Have had changeable weather but not much rain.

Farmers are pretty nearly done shucking corn. We didn't have a very good crop, it was too dry. Had a good crop of oats and hay, but the price of corn and oats came down, so the farmers is hit pretty hard, considering prices he had to pay for help. Corn is 70c, oats 40, hogs \$8.50 per hundred.

I want you to send me your paper, for it is just like a letter from old Highland—my old home, and I think so often of the days that I spent there and of the people I used to know, many of whom have answered the last roll-call.

If you will publish this I will be much obliged.

Your friend, Samuel Mowry

GET MORE BUTTER

Mrs. Hattie Meece of Glenn, Missouri, says: "I was not making enough butter from my cow's milk production for a family of two. After using Dr. LeGear's Stock Powders a short time, she gave a half gallon more milk a day, and a pound of butter a day."

Dr. LeGear's Stock Powders give to milk cows just what is needed to keep the digestive organs in proper condition, so that they get the most possible good from their feed. Give equally wonderful results when used for horses, hogs, and sheep, because they are a tonic, appetizer and worm expeller.

It matters not what ailment you may have among your stock or poultry, it will pay you to get the proper Dr. LeGear Remedy from your dealer. They are the Doctor's personal prescriptions, compounded during his 28 years of Veterinary Practice and Expert Poultry Breeding. They must satisfy you, or your dealer will refund your money. adv

"WELL, OLD MAN, HOW ARE YOU?"

If Your Blood Is Rich and Red You Say, "Fine" ENTHUSIASM IS RED-BLOODED Try Pepto-Mangan if You Feel Weak and Look Pale

Sometimes you are almost down and out. You know you are not really sick, but you have a pestered-out feeling. You eat little. You drag along. In the morning you look at your face in the mirror. You feel years older when you see how pale and haggard you are.

It is your blood. It needs red corpuscles. Instead of poking along half sick, why don't you try taking Pepto-Mangan, the blood tonic? It has just the ingredients weak blood needs. With red blood your energy and enthusiasm return. You eat better. You tackle work and achieve.

Pepto-Mangan is widely and heartily endorsed by physicians. It is effective and easy to take. It is sold in both liquid and tablet form. The medicinal properties are identical.

Sold at any drug store. But be sure to get the genuine Pepto-Mangan—"Gude's". Ask for it by the name and be sure the full name, "Gude's Pepto-Mangan," is on the package. Advertisement

You and Your Car

When there is anything wrong with you personally you see a medical doctor. That is wisdom.

When there is something wrong with your car you should see a "car doctor." That also, is wisdom

Big accidents are often caused by little defects in your car. But if we go over your car occasionally, the cause of those accidents will be removed.

We correct all defects quickly, effectively, and inexpensively. The sooner we do it the less it costs, for a little defect today may be a big one tomorrow
